

TonicPhysio Monthly SEO Performance Report

April 2026

Prepared by Rank Ray SEO

Date: April 30, 2026

Property: tonicphysio.com

Executive Summary

April 2026 delivered a +7.3% increase in organic clicks (708 vs 660 in March) despite a 22.6% drop in total impressions. This signals improved ranking precision — fewer but more targeted impressions converting to clicks. CTR improved from 0.86% to 1.19%. However, average position weakened from 10.5 to 14.1, primarily driven by increased ranking for broader/long-tail queries outside the core local keyword set. The standout win: "lymphatic drainage massage near me" jumped from position 5 to position 2, now ranking directly below the local pack for a high-volume term (SV: 2,900). GA4 tracking shows a data anomaly — April reports only 279 sessions vs March's 1,312. The GSC data confirms actual traffic increased, suggesting a GA4 tracking issue (possible tag firing failure, consent management change, or property configuration shift) that needs immediate investigation.

Key Wins

- Click growth of +7.3% MoM - despite fewer impressions, more users clicked through from search.
- CTR improved by 38% (0.86% → 1.19%), indicating better meta title/description relevance.
- "lymphatic drainage massage near me" gained 3 positions - now at #2 for a 2,900 SV keyword.
- "prenatal massage milton" gained 3 positions - improved from #9 to #6 (SV: 110).
- Brand keywords holding strong - 'tonic physio' (1.1), 'tonic physiotherapy' (1.1), 'tonic physio milton' (1.0) all maintain top positions.
- Google Business Profile driving significant traffic - GBP organic was the 3rd largest traffic source at 56 sessions.

Google Search Console: Clicks & Impressions

Metric	March 2026	April 2026	MoM Change
Total Clicks	660	708	+7.3%
Total Impressions	76,644	59,333	-22.6%
Avg. CTR	0.86%	1.19%	+0.33 pp
Avg. Position	10.5	14.1	-3.6

compression socks milton	2	50	-

manual lymphatic drainage near me	2	90	1
pediatric physiotherapy near me	1	110	-
milton physio	1	70	-

Action Plan: May 2026

Critical (This Week):

1. Fix GA4/GTM tracking gap - Audit the GA4 tag implementation. Check if tag was removed during recent WordPress updates.
2. Re-establish conversion tracking - Set up cross-domain tracking for JaneApp booking flow.
3. Protect the 'lymphatic drainage massage near me' gain - Refresh the landing page with updated content.

High Priority (Next 2 Weeks):

4. Target page-2 opportunities - Optimize pages for keywords on page 2 (positions 11-20).
5. Create service pillar content - Gap analysis shows content volume is the primary differentiator.
6. Build internal links - Add contextual internal links from top-performing guides to service pages.

Ongoing (Throughout May):

7. GBP optimization - Post weekly updates, respond to all reviews within 24 hours.
8. Monitor AI discovery - Track ChatGPT and other AI platforms as referral sources.
9. Local citation maintenance - Ensure NAP consistency across all local directories.
10. Monthly reporting cadence - Schedule next report for May 31, 2026.
